

MEMORANDUM FOR: Deputy Director of Central Intelligence

SUBJECT : Proposed Program for Exploitation of CIA Alumni

REFERENCE : Staff Study, Subject: Exploitation of CIA Alumni,
dated 23 April 1962

1. This memorandum contains a recommendation for approval by the DDCI. Such recommendation is contained in paragraph 4.

2. In approving the recommendations contained in Reference on 1 May 1962, you requested submission of a detailed program for approval. Accordingly, a proposed Regulation and companion Office of Personnel Memorandum on the subject are attached at Tabs A and B respectively.

3. The idea of establishing a central record in the Office of Personnel of former employees who are contract agents as outlined in paragraph 2c of the proposed Regulation met with considerable opposition throughout the DD/P area during the course of informal coordination. However, it is considered essential that a central record of such personnel be maintained at some point within the Agency, either in the Office of Personnel or in an Office or Staff within DD/P, in order to insure that full utilization is being made of the Standby Reserve and that routine correspondence is not mailed to individuals being used on a current basis.

4. It is recommended that the proposed Regulation ~~and Office of Personnel Memorandum~~ be approved for coordination and publication.

Emmett D. Echols
Director of Personnel
